Subject: RE: Case # R34651, SDG # C0DE0 - Validated Data for Miller Chemical Site

Greg,

I'm sure you're understanding of this but this email was for transmission of the validated analytical results associated with the Miller Homewell Sampling. The data summary tables will be updated with the validated results and included with the trip report.

Of note, several of the nitrate results were "J+" qualified, indicating that the results are an estimated quantity and may be biased high.

Let me know if you have any questions, please.

Thanks,

Ex. 4 - CBI

Greg,

Attached to this message you will find electronic files containing the validation report and validated organic data for Miller Chemical Site, Case # R34651, SDG # CODE0. The validation of this case was completed by the Region III Environmental Services Assistance Team (ESAT).

Please contact ESAT's RPO, Brandon McDonald by phone at 410-305-2607 or e-mail at McDonald.Brandon@epa.gov if additional assistance is needed.
